SUBJECT INDEX

- ADCC
 - enhancement of, with interferon, 183
- Antibodies
 - β -adrenergic effect of, in chagasic patients, 534
 - induction of, to C-peptide during insulin therapy, 171
 - induction of, to insulin, 163
 - modulation of viral glycoproteins by, 507
 - reactive with cereal antigens in coeliac patients, 651
 - specific for mitochondria in primary biliary cirrhosis, 267
 - titres of, in endometriosis, 259
- Anti-thyroid drugs
 - and lymphocyte function, 55, 62
- ApoSAA
 - characterization of complexes with protein SAA, 382
- Basophils
 - activated by staphylococcal protein A, 661
- B cells
 - mitogenic stimulation of malignant forms, 355
- B-CLL
 - reduced T lymphocyte colonies in, 336
- Behçet's disease
 - lymphocyte responses in, 549
- Benign monoclonal gammopathy
 - differentiation of, from frank myeloma, 596
- Biliary cirrhosis
 - antibodies to mitochondria in, 267
 - C1C and lymphoid cell interactions in, 7
- B lymphocytes
 - IgD-Fc receptors on, 579
- Bullous pemphoid blisters
 - effect of, on eosinophils, 555
- C3b receptor
 - activity of, and immune complexes in serum, 189
 - regulation of C3/C5 convertase by, 209
- C3/C5 convertase
 - regulation of, by C3b receptor, 209
- Carbamate
 - immune functions after treatment by, 223
- Cardiolipin
 - antibodies to, in SLE, 298
- Cartilage hair hypoplasia
 - lymphocyte dysfunction in, 621
- Cell-mediated cytotoxicity
 - stimulation of, depressed in SLE, 253
- Cell-mediated immunity
 - activity of in pregnancy, 601
- Cellular immunity
 - in sarcoidosis patients, 25
- Cereal antigens
 - reactive with antibodies in coeliac patients, 651
- Chagas disease
 - β -adrenergic effect of antibodies in, 534
- Circulating immune complexes
 - in Indian childhood cirrhosis, 1
 - interactions with lymphoid cells, 7
- Cord serum
 - contents of immune complexes in, 450
- Corynebacterium parvum*
 - effect of, on mononuclear phagocytes, 487
- C-peptide
 - induction of antibodies to during insulin therapy, 171
- C-reactive protein
 - binding assay for, 231
 - sensitivity of platelet receptors for, 213
- Cyclophosphamide
 - effect of, in multiple sclerosis, 495
 - effect of, on EAE resistance, 311
- Cystic fibrosis
 - activity of mononuclear cells in, 178
- Cytomegalovirus
 - increased IgM content in infections by, 515
- Cytotoxicity
 - role of sulphhydryl groups in T lymphocyte-mediated form, 644
- Cytotoxic T cells
 - generation of, inhibited by CLA in SLE, 525
- Delayed type hypersensitivity
 - modification of, 434
- Deoxyadenosine
 - effect of on ADA inhibited T and B cells, 587
- Deoxycoformycin
 - action of, on T cell colonies, 115
- Deoxycytidine
 - effect of, on immunodeficiency, 303
- DNA
 - antibodies to, in SLE, 298
- EAE
 - resistance to induction of, 311
- Eczema
 - deficit of suppressor T cells in, 92
- Endometriosis
 - autoimmunity in, 259
- Eosinophils
 - effect of bullous pemphoid blister fluid on, 555
- Epidermal cells
 - subpopulations of in MSLR, 426
- Epstein-Barr virus
 - interaction with leukaemic B cells, 347
- Erythroid cells
 - effect of oxytetracycline on, 327
- Experimental autoimmune thyroiditis
 - effect of thyroid hormones on, 51
- Familial Mediterranean fever
 - correction of suppressor cell deficiency in, 99
- Fc receptors
 - relationship between IgG forms and K-562 antigens, 360
- Frank myeloma
 - differentiation of, 596
- Fulminant meningitis
 - properdin deficiency in, 291
- Graft versus host disease
 - analysis of skin in, 123

- Haemagglutinins
 high titres of, in malaria, 83
- HL60
 used to study human myeloid antigens, 374
- HLA-DR antigens
 on leukaemic cells, 41
- Hypogammaglobulinaemia
 LDH isoenzymes in T lymphocytes in, 617
- IgA
 binding to wheat gluten and gliaden, 203
- IgA deficiency
 low mol. wt IgM in, 198
- IgA nephropathy
 increase of T α cells in, 77
- IgD-Fc receptors
 presence of, on B lymphocytes, 579
- IgE
 detection of, in onchocerciasis, 541
- IgG-Fc receptors
 presence of, on monocytes in myotonic dystrophy, 572
- IgM
 increased presence in cytomegalovirus infections, 515
 presence in IgA deficiency, 198
- Idiopathic glomerulonephritis
 T cell subset alterations in, 70
- Immune complexes
 contents of in cord serum, 450
 relationship of, with C3b receptor activity of erythrocytes, 189
- Immune functions
 after carbamate treatment, 223
- Immune reactions
 in chronic active liver disease, 17
- Immune responses
 in typhoid carriers, 34
 specific for skin test antigens after multiple testing, 635
- Immunogold technique
 study of normal lymphocytes by, 416
- Immunity
 recovery of after induced immunosuppression, 318
- Immunological analysis
 on family with scleroderma, 275
- Immunosuppression
 recovery of immunity after, 318
- Indian childhood cirrhosis
 circulating immune complexes in, 1
- Insulin
 induction of antibodies to, 163
 lymphocyte transformation by, 155
- Interferon
 activity of, in SLE, 246
 defective production of, 454
 enhancement of ADCC by, 183
 response of in SLE, 239
- Irradiation
 effect of, on EAE resistance, 311
- Juvenile chronic arthritis
 lymphocyte responses in, 540
- LDH isoenzymes
 presence in T lymphocytes, in hypogammaglobulinaemia, 617
- Leukaemia
 interaction of Epstein-Barr virus and B cells in, 347
- Leukaemic cells
 HLA-DR antigens, 41
- Liver disease
 immune reactions in chronic, active forms, 17
- Lymphoblasts
 locomotion of towards sugars, 479
- Lymphocyte activation factor
 produced by neutrophils, 474
- Lymphocyte function
 and anti-thyroid drugs, 55, 62
- Lymphocytes
 aberrations in subpopulations and function during stress, 132
 determinants of locomotory behaviour of, 461
 dysfunction of, in CHH, 621
 purine metabolism enzymes in, 148
 responses of in arthritis and Behçet's disease, 540
 subsets of, in liver disease, 17
 transformation of, by insulin and insulin-zinc, 155
- Lymphoid cells
 effect of oxytetracycline on, 327
 interactions with circulating immune complexes, 7
- Malaria
 titres of haemagglutinins in, 83
- Mitosis
 stimulation of in malignant B cells, 355
- Monoclonal antibodies
 reactive to protein SAA, 390
 study of normal lymphocytes by, 416
 T lymphocyte subpopulations defined by, 107
 used to study human myeloid antigens, 374
- Mononuclear cells
 activity of in cystic fibrosis, 178
- Mononuclear phagocytes
 effect of *Crynebacterium parvum* on, 487
- MSLR
 analysis of cell subpopulations in, 426
- Multiple sclerosis
 immunosuppressive effects of cyclophosphamide in, 495
- Myasthenia gravis
 ACh receptor and thymus in, 563
- Mycosis fungoides
 immunological profile of, 397
- Myeloid antigens
 studies of, 374
- Myositis
 ACh receptor and thymus in, 563
- Myotonic dystrophy
 monocyte IgG-Fc receptors in, 572
- Natural killer activity
 defective in delayed cord separation, 454
- Natural killer cells
 activity of, in SLE, 246
 responses of in SLE, 239
- Neutrophils,
 produce lymphocyte activating factor, 474
- Nucleoside phosphorylase deficiency
 hyperactivity and abnormalities in, 610

- Onchocerciasis
detection of IgE antibodies in, 541
- Oxytetracycline
effect of on erythroid and lymphoid cells, 327
- Phagocytes
determinants of locomotory behaviour of, 461
- Platelet receptors
sensitivity of, for C-reactive protein, 213
- Polymorphonuclear leucocytes
movement of in fulminant hepatic failure, 442
- Pregnancy
maternal cell-mediated immunity in, 601
- Properdin
deficiency of in fulminant meningococcal infections, 291
- Protein SAA
characterization of complexes with apoSAA, 382
monoclonal hybridoma antibodies to, 390
- Purine metabolism
enzymes for, in lymphocyte subpopulations, 148
- Radiometric binding assay
for C-reactive protein, 231
- Red cell transfusions
effect of on immunodeficiency, 303
- Resistance
genetic control of, to *S. typhimurium*, 283
- Rheumatoid disease
antibodies to EB virus and cytomegalovirus
antigens in, 341
- Sarcoidosis
cellular immunity in, 25
- Salmonella typhimurium*
genetic control of resistance to, 283
- Scleroderma
immunological analysis of family with, 275
- Serum amyloid A
presence in viral infections, 503
- Serum stimulatory activity
in fulminant hepatic failure, 442
- Severe combined immunodeficiency
effect of red cell transfusions, thymic hormone and
deoxycytidine on, 303
- Skin
analysis of, in graft versus host disease, 123
Smouldering multiple myeloma
differentiation of from frank myeloma, 596
- Splenic macrophages
inhibition of PC suppressor activity of, 366
- Staphylococcal protein A
role in basophil activation, 661
- Streptolysin O
antigenic and mitogenic properties of, 139
- Stress
effect of, on lymphocytes, 132
- Sulphydryl groups
role in T lymphocyte-mediated cytotoxicity, 644
- Suppressor cells
correction of deficiency of in familial Mediterranean fever, 99
regulation of T cell responses by, 406
- Systemic lupus erythematosus
antibodies to DNA and cardiolipin in, 298
CLA inhibit cytotoxic T cell generation in, 525
depressed stimulation of CMC in, 253
interferon and NK cell activity in, 246
interferon and NK cell responses in, 239
- Tx cells
increase of in IgA nephropathy, 77
- T cell
subpopulations of, in MSLR, 426
- T cell colonies
action of deoxycytidine on, 115
- T cells
deficit of suppressor forms in eczema, 92
lethal effect of H-2 alloantigen activated types, 629
regulation of responses by, by suppressor cells, 406
- T cell subsets
alterations of, in idiopathic glomerulonephritis, 70
- Thymic hormone
effect of, on immunodeficiency, 303
- T lymphocytes
reduced colonies of in B-CLL, 336
subpopulations of, defined by monoclonal antibodies, 107
- Thyroid hormones
effect of, on experimental autoimmune thyroiditis, 51
- Typhoid
immune reactions in carriers of, 34
- Viral glycoproteins
modulation of, by anti-viral antibodies, 507
- Viral infections
presence of SAA in, 503
